

Caselle Postpones the 2010 Annual Conference

PROVO, Utah – February 24, 2010 – Caselle® postponed its annual conference until 2011. The decision comes in response to increasing travel and budget restrictions from Caselle users. “Many of our customers have informed us that they cannot attend due to budget restraints,” said Scott Cook, Caselle’s vice president of Operations.

Caselle today also announced the new Caselle Webinars series, a free interactive seminar for users to access the in-depth instruction experienced at a Caselle conference. Caselle Webinars continues the effort to provide accessible training for Caselle users. Caselle Webinars uses live, hosted sessions to share best practices and introduce new software enhancements in both Clarity and Classic applications. Users who cannot attend a live session can also choose to listen to a recorded session.

Caselle looks forward to using Caselle Webinars to talk, to learn, and to share the best of Caselle – deepening old relationships and fostering new friendships. Go to www.caselle.com/support/webinar.php to register. We’ll be waiting for you.
