

# CASELLE® Access 2.x – Standalone

## Standalone System Requirements

**Important!** Using servers, workstations, or servers and workstations that do NOT meet the specified network system requirements may result in unsatisfactory performance and response times.

### Recommended

- Standalone Computer**
- Pentium® IV 2.6 Ghz (or higher)
  - 512 MB of available RAM
  - 30 GB available disk space
  - Color SVGA .28 Monitor
  - 48x CD-ROM Drive

All hardware must be Microsoft®/Novell® certified (request printed certification documents). Celeron and Sempron processors are NOT recommended.

**Operating System** Microsoft® Windows XP Professional, Windows Vista, or Windows 7 Professional

**Power Protection** Same as required.

**Backup System** Same as required.

**Data File Transfer** Same as required.

**Printer** HP® 5, 6, or 7 series. HP® 4000-5000 series, or IBM® Network Printer 17

About Dot Matrix Printers: In Microsoft® Windows, dot matrix printers print slowly. Often dot matrix printers DO NOT have adequate graphic drivers.

**Internet Access** Same as required.

Explanation: Caselle® Applications require Internet access to download program updates. Using an Internet connection that is slower than 56 Kbps will take significantly longer to download data.

**Email** Same as required.
