

CASELLE® SQL 3.x – Network

Network System Requirements

Important! Using servers, workstations, or servers and workstations that do NOT meet the specified network system requirements may result in unsatisfactory performance and response times.

	Recommended
Network Server Operating System	Microsoft® Windows Server 2003 or Server 2008
Network Server Equipment	<ul style="list-style-type: none">• Pentium® IV 2.6 Ghz (or higher)• 1 GB of available RAM• 36 GB SCSI Ultra 160 disk space• Color SVGA .28 Monitor• 100 mbit Ethernet Network Card• 100 mbit Ethernet Switch• 48x CD-ROM drive
	All hardware must be Microsoft® /Novell® certified (request printed certification documents).
Database Software	Microsoft® SQL Server 2000 Standard or Enterprise Edition
Network Server and Database Server Power Protection	Same as required.
Workstation Computer	<ul style="list-style-type: none">• Pentium® IV 2.6 Ghz (or higher)• 512 MB of available RAM• 30 GB available disk space• Color SVGA .28 Monitor• 48x CD-ROM Drive
Workstation Operating System	Microsoft® Windows XP Professional, Windows Vista, or Windows 7 Professional
Workstation Power Protection	Same as required.
Backup System	Same as required.
Data File Transfer	Same as required.
Printer	HP® 5, 6, or 7 series. HP® 4000-5000 series, or IBM® Network Printer 17
Internet Access	Same as required. Explanation: Caselle® Applications require Internet access to download program updates. Using an Internet connection that is slower than 56 Kbps will take significantly longer to download data.
Email	Same as required.
Network Installer	Same as required.
