

Business License

PERMITS

Issuing business licenses is a critical part of local government operations. Now you can integrate and define the process in one easy-to-use application with Caselle Business License.

Keep track of the license statuses while keeping your city's businesses on track by printing renewal forms when a license is about to expire. Set up multiple user-defined business activities so you can keep all of your license information organized and searchable. You can also track tax statuses for easy billing. Centralized, electronic license information combined with a powerful inquiry function make your job easier and more efficient than ever.

EFFICIENT

- Ensure compliance with local ordinances and regulations prior to issuing a license.
- Complete billing and payment capability.
- Assess renewal fees for all businesses based on predefined rates.

FLEXIBLE

- Customize license fees and tiered rates.
- Search and find information by business name, owner, locations, and more.
- Create user-defined fields to accommodate unique organizational needs.

BENEFITS

- Manage the renewal process with user-defined notices.
- Generate business licenses on demand or in a batch.
- Track multiple licenses for a single business.

INTERFACES WITH

- Business Tax Collection
